Hello!

In your hands you hold the **THIRD issue** of the school magazine "**The Originals 11**". Our magazine will be published four times a year and we hope you will always enjoy reading it. In the **THIRD issue** you are going to read about the most important news from our school and town. This section is called "**Our school and town**" and we hope it won't be the only part you'll enjoy. We are sure that you will also like sections called "**Entertainment**", "**Sport**", "**Life in England and the USA**" and many others.

For entertainment you can look forward to articles such as "Great Games to Play", "**From our recipe book**" and serialized comic strip "**Nerd**". In the "Sport section" you can read not only about the latest news from the sport life of our school but you will also be informed about famous football clubs from all over the world as well.

Because our magazine will be published purely in English, we will be interested in culture of English speaking countries. We hope it might be useful and interesting for you. This issue will be devoted mainly to "**Summer holiday**", which is very close. You can read the articles written by the students of the classes 9.B and 9.A. In an article called "**GOODBYE SCHOOL**" they want to say goodbye to our school.

This issue will be devoted to **IIHF and Ice Hockey World Championship 2015** as well.

We hope you will enjoy this issue and that you will also join us to create and improve the following parts of our magazine. We need all of you, your help, advice and support.

Your editing team

From the life of our redaction:

Even though we have already started the work on the magazine, **we are still looking for new journalists** - so if you want to, you can **join us!!!**

This way I want to thank journalists who helped to create the magazine. Among them are: **Klára Jalůvková, Klára Drabinová** and **Matěj Mička** . We are really happy to have them on our team. Other members are **Nikolas Jeřábek, Nela Špačková, Barbora Džuganová, Gabriela Mandrysová, Simona Horčíčáková, Michal Fuček, Erik Daško, Matěj Holub, Patrick Veselka.**

NEWS FROM OUR SCHOOL-

"Goodbye school"

On the following pages you can find the articles written by the pupils from the classes 9. A and 9. B, who are leaving our school and who wanted to share their thoughts about our school with you.

The Earth Day

This last Thursday was Earth Day. We had a meeting at 7:20 at a bus stop called Veselá. We went with our class and three students from class 9.C. There were only two girls in our group. The return ticket cost us 70 CZK. We went by bus and we got off at Zlatník bus stop. The majority of the way we walked in the woods and there was snow so we were sliding. We started the trip as one big group, but later we were divided into many small groups. We had to wait for our teacher by every signpost. When we came out of the forest we could see many aircrafts in the air. When we reached the top of the hill, we had an hour break for lunch. I had a cabbage soup with bread and I also ate the snacks from home. The teacher ordered a lunch as well. After lunch we took pictures of our group near some stone. Then 9.A climbed a hill. We waited for our teachers and after that we had a snowball fight. On our way back we went through Malchov and 9.A came with us. We had some breaks again. When we came down, we had to wait half an hour for the bus to come. Fortunately a restaurant with wi-fi was open so we waited there. After we arrived back at station Veselá we could go home.

Volleyball tournament

On Thursday morning we competed in a volleyball tournament against other schools. In the morning we met at a school of industry in Mistek. We all gathered in the locker room, changed our clothes and then we went to warm up for the first match which we, of course, won 2:0. Then all the teams gathered on the playground. The next round of the tournament begun with a speech from Mrs. Górecká and director of the school of industry. All the teams were photographed for diplomas soon after, but we were still waiting for a team from a school from Krnov, which was late. Mr. Vrba and Mrs. Dedková called us and we went to watch other teams play so we would know how to play them and win. The second game we also won 2 : 0 but it was harder than the first match. We had some time off so our team discussed tactics. We won the third match after all, even though we had some problems during the play and we didn't play as well as we hoped. The last match was the hardest, we played against Bílovec. They have a very good team which already competed in many competitions. It was not a good match for us even though we wanted to win. The second set was better, we were winning for a moment but we still lost at the end. Eventually, we lost by five points. The winners were announced after the last match. We finished second and we got the cup, but it was not enough for us. The first place finish belonged to Bílovec. We played well in the whole tournament and I hope that we win the next time.

Court Hearing

We, class 9. A, attended a court trial on Thursday on May 5. We met at 7.30 in front of the courthouse in Frydek-Mistek. It was a case of drug sales and possible drug production. Upon entering the building, we walked through a metal detector. Then we went to the courtroom. Here, the judge informed us about the case. He introduced us to lay judges, state representatives, lawyers and clerk. The person charged with the crime was Mr. Slávyk. He had already been punished for selling drugs several times in the past. This time the court had to decide if Mr. Slávyk sold and made drugs again, this time methamphetamine. They also needed to decide about how long he would be imprisoned for because the law suggests two to ten years. We could see several interrogations of the witnesses, especially of those who bought the drugs. We also saw testimonies of police investigators. We spent about five hours there and we had several breaks. The judge didn't reach a decision so the case was adjourned to May 19, 2015. The whole process was very interesting. I'm curious to find out what the verdict is.

Hanka, Tomáš and Jolana Interview

On Saturday 11th April, a Championship in gymnastics took place in Prague and our girls **Adéla Blažková, Jolana Jašůrková, Hana Filipová a Veronika Papalová** won gold medals for our school. A football tournament, called "Premier Cup 2015", took place only one day before the championship and **Tomáš Ostrák** represented our school in it. The "Originals 11" brings you an exclusive interview with our three heroes from class 9.B.

11: How long have you been doing gymnastics?

H+J: We have been doing gymnastics for 9 years.

11: Who is your biggest idol?

H: My idol is Nastia Liukin and I like Věra Čáslavská as well.

11: What is your biggest success?

H+J: We have won the Championship of the Czech Republic several times.

11: How often do you practise?

H+J: We practise every day and we like it a lot.

11: Why did you start doing gymnastics?

H: Because of my friend from kindergarten who persuaded me to do it.

11: Tomáš, who inspired you to play football?

T: My father brought me to football.

11: Which team are you playing for?

T: I play for Frýdek- Místek.

11: What is your biggest success in football?

T: My greatest success is that I will represent the Czech Republic in a tournament in Denmark.

TRAVELLING

Travelling is a way to get from one place to another. People travel for various reasons: they want to get to school or to work, they travel for when they go on holiday and also if they want to enjoy a different culture in faraway countries. And many people like travelling because it is exciting. I always pack before I travel. I use my luggage, put in

the clothes, toiletries, make- up, passport, I check my house and I'm ready to travel. People often travel abroad in summer. Some people like to visit countries where the weather is usually warm, like Croatia, Florida or Tunis. Some people visit countries well known for its cold climate, for example Canada, Russia, Poprad or the Alps in Austria. Many people like to explore while on holiday, they can visit interesting places such as the pyramids in Egypt, Eiffel Tower in Paris or Big Ben in London. Some men like sports and they like to watch football matches, formula racing, Olympic games and they sometimes travel to those countries where these events take place.

There are many means of transport. The most popular is airplane. Although it is quite expensive, it is also comfortable and fast. One of the disadvantages is that it's not good for the environment. Another is that there usually aren't airports in small towns. We have three airports in Slovakia. Travelling by car is popular as well. A lot of people have

cars because it is cheaper and more comfortable than bus and gas stations are on every corner. We can stop whenever and wherever we want. People don't travel by bus very often anymore because it is quite uncomfortable, noisy and slow. Other means of transport are for example train and boat. If we don't have much money, we can try travelling by bike - it is cheap, it is good for our health and it is also good for the environment.

The majority of people don't like to travel alone. We like to spend our free time with our family and friends. When I travel with my family we go by car but when I travel with my friends we go by bus. We check in a hotel as soon as we arrive. We usually pay for half board because we like to travel during the day and eat outside of the hotel we are staying in.

We like to lay on a beach, climb mountains, dance in local clubs, buy souvenirs in shops, we like to play sports with our friends and we only sleep a little. I don't like to travel alone because then I am sad and lonely and I don't enjoy the trip at all.

In the past people travelled on horses, in carriages and, of course, on foot. Then they used trains, steam cars and steam boats. Nowadays travelling is very popular and common and sometimes even necessary. Travelling today is very fast and we can expect that in the future it will be even faster and also safer.

We don't need visa or passport to travel to countries in the EU. But we need to have our ID, some money and we should know at least one foreign language for example English or German. This is also the main reason why many people learn languages - we need them when travelling abroad.

PRAGUE Great City to Visit

Prague is the capital and largest city of the Czech Republic and the 15th largest city in the European Union. It is located slightly north of the center of Bohemia on the Vltava river, within the Central Region, which is the administrative center, but as a separate region is not part of it. It's home to a large number of state institutions and many other organizations and companies. Prague is associated with the president, parliament, government, central government authorities and one of the two high courts. Moreover, Prague is the headquarters of many other authorities, both central as well as local government units. There are also the headquarters of most political parties and the headquarters of almost all churches, religious and other associations with nationwide jurisdiction registered in the Czech Republic.

HISTORY

The territory of today's Prague housed in prehistoric times many different tribes - the latest findings in Křeslice local settlement date back to seven thousand years ago (in terms of culture with linear - formerly volute - ceramics). It was founded on the site of Celtic Envy settlement. The area where Prague now stands is mentioned in Ptolemy's map (2nd century) as a Germanic town called "Casurgis". During the migration of peoples in the 6th century, the Slavs began to colonize Prague.

CULTURE

Prague is the cultural capital of the Czech Republic and also the European Capital of Culture 2000. There are tens of museums, galleries, theatres, cinemas and various cultural institutions. National Gallery in Prague manages the largest collection of art in the country. Fair Palace houses a permanent exhibition where we can find works of international artists such as Mucha, Picasso, Monet or Van Gogh.

SHIPPING

Prague is the main transport hub in the Czech Republic and it is also a major crossroad in Central Europe. It has an extensive transport infrastructure. Prague railway junction is the centre of long-distance and suburban passenger traffic. Prague large freight yards are in decline, but Uhřetíněves created the largest container transshipment point in Central Europe. Vaclav Havel airport (formerly known as Prague-Ruzyně airport) is the city's main airport.

VEGAN MUFFINS

Ingrediens: banana, apple, baking powder, soy milk, oatmeal, cocoa, honey,

PROCESS

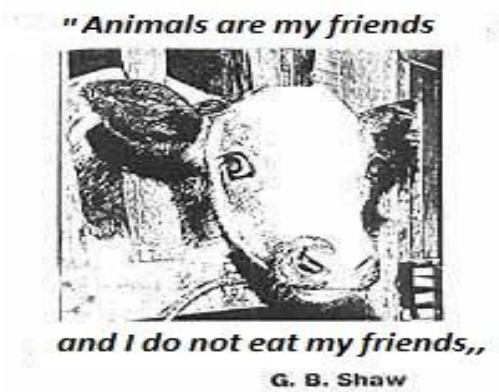

1. Pour two cups of oatmeal into a bowl.
2. Blend the oatmeal in a blender.
3. Add the baking powder.
4. Add two or three spoons of cocoa.
5. Pour one cup of soy milk.
6. Stir and preheat your oven to 200 °C.
7. Peel two bananas and mix it then pour it into the mixture. Add a spoon of honey.
8. Prepare muffin cups, and pour the mixture into them.
9. Put in the oven for thirty minutes.

Why be vegan/Vegetarian?

- Because the exclusion of animal products prevents heart diseases.
- Because we should not lie to your children about the origin of the meat we eat (children are like animals, and telling them fairy tales about animals .. So tell them the tale of a slaughterhouse.)
- Because meat is filthy and bloody.
- Because only a stupid man kills an animal ... and even stupider eats it. (If you eat meat, you pay for something so cruel that if it were done to a dog or a cat, the person would be immediately sentenced to prison)
- Because there is a little bit of faeces in every chicken package (the US Department of farming found out and published in a study that 98% of carcasses are infected by faeces.)

Jaromír Jágr the Best player of 2015 World Championship

Age: 43

birth: 15. 2.1972, Kladno, Czechoslovakia

sign: Aquarius

Jaromír Jágr is a Czech professional ice hockey player who currently plays on the position of centre for the Florida Panthers in the NHL. He previously played in various American clubs, for example for Pittsburgh Penguins, Washington Capitals, New York Rangers, Dallas Stars, Philadelphia Flyers, Boston Bruins and New Jersey Devils. He also spent several years in the Russian team Avangard Omsk.

He won the Olympic ice hockey tournament and the World Cup with the Czech representation. It is a big personality in the field of sport and ranks among the best hockey players of all time.

He started playing ice hockey when he was just a child. He used to wake up in the early mornings and go train with his father, who was also his coach at the time. In 2002 he got a Bachelor degree in hotel management. Jágr is an Orthodox Christian, he regularly prays and reads the Bible as well as liturgy texts.

One of his greatest achievements is the gold medal from the 1998 Nagano Olympics, he also won two Stanley Cups, gold from the World Championships in 2005 and 2010, the Art Ross Trophy for leading players in the NHL (he won it five times). In the years 1998 - 1999 he won the Hart Memorial Trophy for the most valuable player. In 2005 he won in a poll of Czech sports journalists who voted him the Athlete of the year. This year, together with Jiří Šlégr, he became a member of the prestigious Triple Gold Club, which brings together players who have won all three major hockey tournaments (the Stanley Cup, Olympic Games and World Championships).

Great games for rainy summer days

Ratchet and Clank:Crack in Time

This is me, describing my favorite game: Ratchet and Clank:Crack in Time I.

Story: It's brilliant. Clank has been abducted by the Zoni (super clever robots that protect universe) and is being held in prison at an unknown location. Dr. Nefarious (one of the most cleverly written villains ever) has been summoned by the Zoni to repair Clank but is more interested in discovering how to access something called the 'Orvus Chamber', which the Zoni are determined to keep him out of. Deciding to end his "partnership" with the Zoni, Nefarious releases a hovering robot named the Hypersonic Brainwave Scrambler that causes the Zoni to flee and it damages the room. During the ensuing blackout, Clank reactivates and attempts to escape, but is caught by Nefarious and his butler Lawrence who on Nefarious' order immobilizes Clank with an electric orb. Nefarious comes up with a more convenient plan to get inside the Orvus chamber and reassures Lawrence that "We have all the time in the Universe...". Meanwhile in Ratchet's side of the story, he and Captain Qwark (big goofy hero/coward) explore the Breegus System for information on Clank's whereabouts. Aphelion (ratchet's ship) is shot down on Planet Quantos by a time anomaly and crash lands on the planet. Ratchet and Qwark survive the crash and are amazed to see anomalies around the crash site. And that's only the beginning.

Gameplay: Great. Camera is smooth yet sticks on enemies really well in the aiming mode. Movement is great again, smooth and quick. Graphic is epic, some of the best I've ever seen. Everything is great.
